

Hello and Welcome to V.I.S Volunteer in Sri Lanka

First, a big thank you for finding our page - we don't advertise and we are a 100% genuine Sri Lankan organization!

V.I.S also stands for Vacation In Service where we help you experience the deep satisfaction stemming from taking a vacation that provides a balance of purpose , exploring, having fun, and taking care of yourself.

You are staying at V.I.S House at No. 24 Buonavista, Rumasalla 80600 which is in the Southern District area town of Unawatuna (5 minute Tuk Tuk to UNESCO Galle City). You will start each day with a breakfast meditation helping you to become free of worries and setting the tone for the day.

Then you will visit your chosen project area where you will help for the morning. The afternoon is yours to explore, be it at the beach or any of the wonderful attractions around Galle and Unawatuna. The Japanese Peace Pagoda is within walking distance, and along the way is Jungle Beach. You can also walk to the local surf beach or as a group we can arrange transport with your boards, no problem.

Our volunteer programs help real Sri Lankans improve their situations be that smallholders (micro farmers), children in need of education assistance, as well as the welfare of animals from cows, to lost dogs and turtles, and other crucial help the locals need to help keep their environment pristine. We have a program where you can help the re-establishment of mangroves that are vital in protecting our waters.

And starting this month we are offering a "mixed bag" program where 3 persons can volunteer together over a 2 week period on 5 different projects - let your friends know and enjoy a special offer that includes breakfast and dinner and airport transfers - or sign up on your own and make friends with other like minded volunteers in Sri Lanka.

We are great value because no-one in other countries are taking commissions and we do not have a registration fee at all. If you want the real taste of Sri Lanka please consider V.I.S for your next trip.

With humble thanks,

Yrs,

S.S. Mahendra
